ABOUT ME

Versatile IT professional with a Bachelor's degree in Application Development and practical experience managing digital platforms, technical operations, and client relations. Possesses a strong technical foundation across web and mobile infrastructure combined with excellent skills in communication, technical troubleshooting, and operational problem-solving. A dedicated, detail-oriented individual eager to apply data validation, platform monitoring, and service delivery skills within a dynamic IT operations environment.

EXPERIENCE

Lead Application Developer

Xpanda Security | January 2025 - Present

- **Platform Operations:** Launched and maintained a live digital sales platform, focusing on system speed and uptime.
- **Tech Support:** Acted as the main contact for troubleshooting software errors and fixing backend issues.
- **Data Integrity:** Monitored system metrics to ensure accurate quoting and reporting for users.
- **Client Relations:** Handled stakeholder and customer communication to resolve service friction.
